EXPERT / SPEAKER DETAILS		
Name of Speaker	Dr Sandya Arunkumar	
Designation	Clinical Co-Ordinator & Motivational Speaker	
Organization	Arun'S Dental Clinics	
Brief about Expert/Speaker: (max 100 words)	Dr. Sandhya holds a post-graduate degree in Oral Pathology and has established academic experience. She had worked as an Associate professor at Chettinad Dental College earlier. But then she chose a different path after years of pursuing dentistry. She turned into an aspiring motivational speaker, entrepreneur by sheer passion. She is a great orator and has taken this as a full-time profession, also completed multiple sessions in private companies.	
OUTCOME OF ACTIVITY		
Objective: (as bullet points – max 50 words)	The aim of this program is to enlighten the undergraduate students about entrepreneurship and how to turn their clinical skills into big business in the field of dentistry and become entrepreneurs. And also to change their attitude and behaviour towards personal and professional life	
Outcomes: (as bullet points – max 50 words)	The students were well motivated and also acknowledged about how to turn a clinician into an entrepreneur. They were also orated with a few short stories which indulge them in a path of positive attitude and seeking life and career with humanity, peace of mind.	
Key highlights: (as bullet points – max 50 words)	The lecture was very, extremely interesting and it was a power pact session on the behavioural attitude for setting	

	up a clinical practice. The interns were advised to check on the productivity of their internship programme by giving daily tasks for the rest of the year.

EXPERT / SPEAKER DETAILS		
Name of Speaker	SPEAKER 1: Dr. S. Deepa , MDS. SPEAKER 2: Dr. Srividhya S, MDS	
Designation	Reader, Department of Periodontology	
Organization	Sri Venkateswara Dental College, Chennai	
Brief about Expert/Speaker:	SPEAKER 1: Dr. S. Deepa, MDS, is not only a proficient Periodontist and Implantologist but also leveraging her expertise to deliver enlightening lectures on innovation and design thinking hackathons. With a solid foundation from her BDS at Ragas Dental College & Hospital and her advanced training through an MDS from Rajah Muthiah Dental College & Hospital, Dr. Deepa inspires dental professionals to embrace creativity and problem-solving in their practice. SPEAKER 2: Dr. Srividhya S, MDS, is an accomplished dental professional specializing in Periodontics & Implantology. With a BDS from Sri Venkateshwara dental college and Hospital and an MDS from Chettinad dental college & Research Institute, she has consistently demonstrated	

	<p>a commitment to advancing her expertise. Dr. Srividhya is renowned for her insightful lectures on innovation and design thinking hackathons, inspiring dental professionals to embrace creativity and problem-solving in their practice.</p>
OUTCOME OF ACTIVITY	
Objectives	<ol style="list-style-type: none"> 1. Equip students with the practical skills and knowledge to perform a variety of suturing techniques essential for dental surgery and periodontal procedures. 2. Encourage students to explore innovative approaches and technologies in endodontics, focusing on improving the efficiency and outcomes of root canal treatments. 3. Utilize the hackathon as a platform for peer-to-peer learning, where students can share knowledge, techniques, and experiences with one another. 4. Enhance Knowledge on Regenerative and Endodontic Therapies
Outcomes	<ol style="list-style-type: none"> 1. Students will enhance their clinical skills, gaining hands-on experience in suturing, which is critical for wound closure and healing in dental surgeries. 2. Adoption of innovative practices and a deeper understanding of advanced endodontic techniques, leading to improved patient outcomes and potentially transforming root canal therapy.
Key highlights	<ol style="list-style-type: none"> 1. Interactive workshops where students practice different suturing techniques on models or simulators, guided by experienced clinicians. These sessions may include demonstrations of simple, mattress, and continuous sutures, among others. 2. A hackathon challenge centered on root canal treatment, where students propose and develop new tools, techniques, or materials that could streamline the procedure, reduce discomfort, or enhance success rates.

EXPERT / SPEAKER DETAILS		
Name of Speaker	DR AKANSHA TINI, MDS, MBA	
Designation	CONSULTANT ORTHODONTIST, Entrepreneur	
Organization	PRIVATE DENTAL PRACTICE	
Brief about Expert/Speaker: (max 100 words)	Joined annamalai university as Senior lecturer in 2014, she went on to do her MBA in Hospital Management from Amrita School of Management simultaneously. Promoted to Reader after 4 years, she established her successful private practice in Chennai, Dindigul and Trichy along with conducting various workshops and seminars all across Tamil Nadu focusing on Startup and Entrepreneurship, especially for budding women entrepreneurs.	

OUTCOME OF ACTIVITY	
Objective:	<ul style="list-style-type: none"> To instill positive attitude towards problem solving with innovative ideas. Appreciate and felicitate the young achievers in the field of orthodontics. To encourage the innovative ideas from the students
Outcomes:	<ul style="list-style-type: none"> Innovative prototypes fabricated by postgraduates Ability to analyse problems and working towards innovative solutions. Knowledge about soft skills and entrepreneurship among postgraduates and undergraduates Igniting interest among undergraduates over different cases and treatment planning for the same in orthodontics
Key highlights: (as bullet points – max 50 words)	<p>The Ortho hackathon 2024 was organised by interns and postgraduates from Department of orthodontics. On 27.02.2024, the event started with a guest speech by Dr. Akansha Tini. She talked about various innovations in orthodontics and the skills required to be a successful entrepreneur. The speech was followed by an interactive questionnaire session with guest speakers encouraging students to ask their doubts regarding innovations and entrepreneurship. This was followed by wire bending contest among undergraduates where participants were asked to fabricate their own structures using orthodontic wires. The event ended with lunch and replenishments provided for students and faculties. The second day (28.2.2024) had postgraduates presenting their prototypes infront of undergraduates. Postgraduates enthusiastically presented different contraptions that they created from scratch for solving different problems they observed during their treatments. The contraptions ranged from a modified chin cup to address asymmetry to antibacterial retainers and aligners to orthodontic brushes with innovative bristles for addressing deep calculus and plaque.The event was followed by giving lunch and replanishments to the participants The contestants were felicitated with medals and certificates by Dr.Saravana kumar, Head of the Department of Orthodontics, CDCRI.</p>

How to Add Verifier for evaluation process

IIC are expected to assign 3 verifier for evaluating innovation submitted under different category Verifier Innovation Ambassadors or external person.

Step 1. Add Through 'Add New Verifier' tab (Innovation Ambassador will act the details in IA portal).

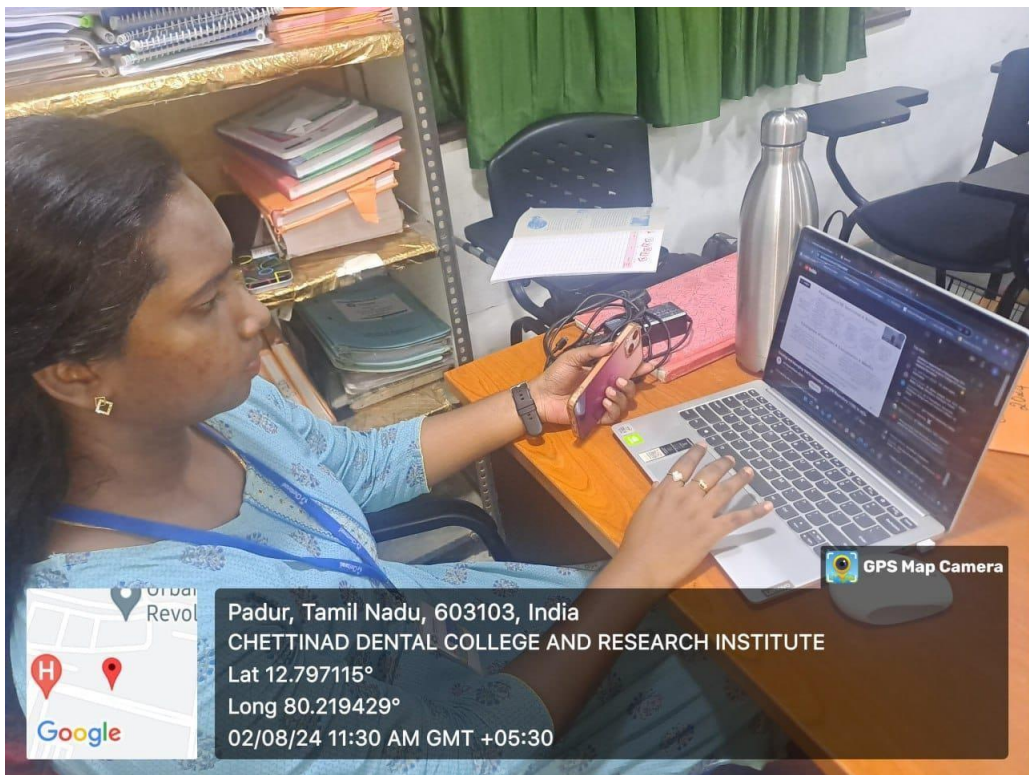

Step 2. Fill in the details for IA or External verifier and click submit.

Once you add external verifier

- Verifier will receive one email generated email with a link to create profile as a verifier.
- Follow up with the verifier to complete their profile as that you can assign them for evaluation.

EXPERT / SPEAKER DETAILS		
Name of Speaker	Dr Shoba Narayan	
Designation	ASSOCIATE PROFESSOR	
Organization	Chettinad Academy of Research and Education	
Brief about Expert/Speaker: (max 100 words)	The speaker for the workshop is apt for the talk as she holds 3 patents and 48 publications to her name and is a Ph.D. guide to 10 students at the university. She has been a mentor to the students and faculties at CARE and CDCRI to familiarize us with the process of proposal writing for a patent. She being an expert in the field was invited to a workshop to help educate the post graduates and interns of CDCRI.	
OUTCOME OF ACTIVITY		
Objective: (as bullet points – max 50 words)	The primary objective was to introduce the students of CDCRI to research proposal writing and simplify the process of putting in words their ideas. The umpteen number of creative ideas of the students go unnoticed due to their lack of writing or explanation skills and this was focussed on.The students needed a motivator and an educator to push them beyond limits.	
Outcomes: (as bullet points – max 50 words)	The students were enthusiastic in hinting ideas to which a proposal writing session was made.The doubts on what can be patented and what not was discussed.The students were made to run through previous works of individuals in their fields and take inspiration from them.	
Key highlights: (as bullet points	The ideas and designs were discussed on a one-to-one session with the speaker.The speaker allowed 3 days for students to come up with ideas and a	

– max 50 words)	rough draft of their proposal so that it can be worked on. The efforts of students thus could be executed with this session.
