The Occupational Safety and Health Act 1984 aims to:

1. Promote and secure the safety and health of people at work;
2. Protect people at work from hazards;
3. Assist in securing a safe and hygienic working environment;
4. Eliminate, reduce and control hazards; encourage cooperation and consultation between employers and employees;
5. Provide for the formulation of policies and for the co-ordination of the administration of laws relating to occupational safety and health; and
6. Promote education and awareness of occupational safety and health

 DEFINITION

- **Diagnosis** is the determination of the nature of a diseased condition by careful investigation of its **symptoms and history**
- **Symptoms** are the units of information sought in clinical diagnosis. They are defined as phenomena or **signs of a departure from normal** and indication of illness.
