### 3.5.1 Amount Generated for the Research and Collaborative Activities of Chettinad Dental College and Research Institute.

<b>Year</b>	<b>Name of the Collaborating Agency</b>	<b>Subject of Collaboration</b>	<b>Number of students trained in the Collaborative Activity</b>	<b>Consultancy Money Generated (INR)</b>
2014-2015	Chettinad academy of Research and Education	Mean platelet volume in type 2 diabetes mellitus	1	5000
2014-2015	Chettinad academy of Research and Education	Oral manifestations and its diabetic complications	1	2500
2014-2015	Chettinad academy of Research and Education	Periodontal disease and rheumatoid arthritis	1	2500
2015-2016	Chettinad academy of Research and Education	Glycated hemoglobin levels in type 2 Diabetes Mellitus and Prediabetes	1	10000
2015-2016	Chettinad academy of Research and Education	Mitotic Figures In Oral Epithelial Dysplasia	1	1500
2016-2017	Chettinad academy of Research and Education	Candidiasis in asthmatic patients	1	5000
2016-2017	Chettinad academy of Research and Education	GERD on oral cavity	1	5000
2016-2017	Chettinad academy of Research and Education	Maternal risk indicators for dental caries	1	2500

2016-2017	Chettinad academy of Research and Education	Oral manifestations of kidney diseases	1	4000
2018-19	Chettinad academy of Research and Education	Dental causes for Otagia	1	2500
2018-19	Chettinad academy of Research and Education	Mucosal changes in Orthodontic patients	1	7500
2018-19	Chettinad academy of Research and Education	Formalin inhalation and Pulmonolaryngeal function	1	100000
2018-19	Chettinad academy of Research and Education	Dietary habits in temperomandibular joint disorders	1	5000
2018-19	Chettinad academy of Research and Education	Length of the styloid process and it's elongation	1	10800
2018-19	Chettinad academy of Research and Education	Migraine in Dental and Medical Professionals	1	9900
2018-19	Chettinad academy of Research and Education	Oral health status of Psychiatric patients	1	5000
2018-19	Chettinad academy of Research and Education	Dental caries, salivary secretion-COPD patients.	1	64000
2018-19	Chettinad academy of Research and Education	Substance abuse in undergraduates	1	8700
2018-19	Chettinad academy of Research and Education	psychiatric disorders in Bruxism	1	7000
2018-19	Chettinad academy of Research and Education	Body Mass Index and Dental caries	1	30000
2018-19	Chettinad academy of Research and Education	Parotid gland function in mobile phone users	1	50000

2018-19	Chettinad academy of Research and Education	Pathogens in dental caries	1	80000
2018-19	Chettinad academy of Research and Education	Edentulism on Nutritional Status	1	10000
2018-19	Chettinad academy of Research and Education	Hypertension evaluation by dentists	1	76000
2018-19	Chettinad academy of Research and Education	Smoking and tobacco on serum inflammatory markers	1	22500
2018-19	Chettinad academy of Research and Education	Prevalence of dental diseases among patients	1	20000
2018-19	Chettinad academy of Research and Education	Weight gain on menstrual irregularities	1	48000
2018-19	Chettinad academy of Research and Education	Periodontal disease and PCOS	1	3000
2018-19	Chettinad academy of Research and Education	Feeding practices and Dental caries	1	16450
2018-19	Chettinad academy of Research and Education	Health risk behaviour and their mental health problems	1	25000
2018-19	Chettinad academy of Research and Education	Serum estradiol in Periodontitis	1	5000
2018-19	Chettinad academy of Research and Education	Caries experience in preterm and term children	1	30200
2018-19	Chettinad academy of Research and Education	Remineralisation activity of nano hydroxyapatite biogel	1	10,000
2018-19	Chettinad academy of Research and Education	Salivary IL-6 in Parkinson's disease	1	20000

2018-19	Chettinad academy of Research and Education	Occupational skin disease in health care workers	1	5000
2018-19	Chettinad academy of Research and Education	Knowledge of HIV infection among Dental and Allied health science students	1	10000
2018-19	Chettinad academy of Research and Education	Changes in oral cavity during pregnancy	1	5000
2018-19	Chettinad academy of Research and Education	Toothpaste allergies in Periodontal dermatitis	1	1500
2018-19	Chettinad academy of Research and Education	Oral lesions in presence of lichen planus	1	2500
2018-19	Chettinad academy of Research and Education	Oral manifestations and salivary changes in dialysis	1	45600
2018-19	Chettinad academy of Research and Education	Orofacial space infections.	1	6000

**Student Activity Report - Pooncheri Rural Health Centre**

**Number of students participated: 64**

The interns of the Department of Public Health Dentistry visit the Pooncheri Rural Health Centre for a period of one month on rotational basis. The Major occupation of the people in this area is fishing, agriculture and Sculptures. It is intended to increase access to primary and secondary oral health care services among the unreached rural communities. The interns serve the large elderly population and do field visits from Pooncheri on weekly twice basis providing fluoride awareness, adverse effects of poor oral health and impact of tobacco etc. The interns focus on providing quality dental treatment and incorporate latest advancements in the field of oral health keeping in mind the enormity of the unmet treatment needs, lack of access, unaffordability for oral health services among the rural population. Basic dental treatment procedures such as Scaling, Restoration, Extraction and minor surgeries with necessary medications are provided at free of cost, and in association with Chettinad Nursing College, the department of Public Health Dentistry deputed Interns under supervision of a staff for house to house survey with an objective to collect the comprehensive oral health profile of the villages around the centre. In this regard the villagers are sensitized about their oral health status and the need for appropriate treatment are also given oral health education in each family. The basic Blood Investigations, Radiographs are carried out in the centre and free medicines are given to the patients. Regular camps have been conducted in the schools, orphanages, old age homes, located in the nearby villages to ensure equitable coverage of the population. The interns also conduct special health events such as Dentist Day, Oral Hygiene Day, National Tooth Brushing Day, and World No Tobacco Day thereby providing oral health awareness to the underserved population.

**Student Activity Report – Karapakkam Urban Health Centre**

**Number of students participated: 64**

The Urban Health Centre (UHC) is situated at Karapakkam near Sholinganallur with the approximate population of 56,000 in its vicinity. UHC – Karapakkam works under the supervision of the department of Public Health Dentistry. UHC is equipped with efficient dentists and supportive infrastructure to provide all dental treatments and minor surgeries with necessary medication. The interns in Urban Health Centre are posted for a period of 15 days on rotational basis and the centre caters oral health needs of people from Sholinganallur Block and St. Thomas Mount Block. The interns do all the dental treatment procedures such as Scaling, Restoration, Extraction and minor surgeries with necessary medications are provided at free of cost in the centre. Since the UHC is attached with medical OP of Chettinad Medical College, the students will have a higher exposure to medical cases such as RTA. The basic Blood Investigations, Radiographs are carried out in the centre and free medicines are given to the patients. Regular dental camps have been conducted in the schools, orphanages, IT centres, old age homes, located in the nearby centre to ensure equitable coverage of the population. The interns also conduct special health events such as Dentist Day, Oral Hygiene Day, National Tooth Brushing Day, and World No Tobacco Day thereby providing oral health awareness to the population. All the health education programs will be conducted by the interns not only concerning on the oral health issues but also its impact on general health. Along with the nursing the nursing students, the interns also participate in door to door survey and record the oral health needs of the public thereby conducting the dental screening camps.

**Student Activity Report - CARE Industrial Visit**

**Number of students participated: 10**

The Department of Pharmacology, Chettinad Academy of Research and Education, visits the Chettinad Dental College and Research Institute with their second year MBBS students for a period of 2 weeks as an Industrial visit program. On the first day of visit in the Department of Oral Medicine, all the students will be divided into 9 groups each with 2-3 students in one group. All the students observe the dental departments, pertaining to the clinical discussions of the students, the types of treatment procedures from the basic dental treatments to the surgical procedures rendered to the patients. As oral health is a mirror of general health, the importance of oral hygiene, oral habits and oral health issues will be dealt to the students by the department staff apart from the significance of each department in dentistry. The students will be observing all the health education models of each department and notifies the importance of oral health and its impact on systemic health and vice versa. The student's attendance also will be monitored by the departments for the smooth functioning of the program. This program aids the students in gaining knowledge of the basic oral health issues and enables them to cater the treatment necessities for the patients even in the absence of dental professionals.

**Oral and Maxillo Facial Surgery Post Graduates Activity Report – Balaji Dental and Craniofacial Hospital**

**Number of students participated: 04**

Dr. Jessica Yolanda Jeevitha and Dr. Prakyatha attended the peripheral postings at Balaji Dental, Craniofacial hospital from 03/01/2018 to 20/1/2018 and Dr. Vijayalakshmi and Dr. Harshne from 1/2/19- 18/2/19. They observed various maxillofacial surgical procedures including reconstructive surgeries, distraction osteogenesis, orthognathic surgeries, surgical management of TMJ disorders and pathologies of maxillofacial region like cyst enucleation, implant surgeries and cleft surgeries. They were trained in the initial assessment of the patients, obtaining a proper case history, evaluation of the patient, choice of investigation for a particular case, arriving at a diagnosis and formulating a proper treatment and surgical plan. They were also trained to prepare the patient preoperatively, collaborate interdisciplinary protocols if needed, assist and observe during the surgical procedures. They participated in the ward rounds regularly and learnt the postoperative care and management, handling the complications and follow up of the patients. They observed and assisted the following surgeries:

	Jessica /Prakyatha	Vijayalakshmi/Harshne
Orthognathic surgeries	5	4
Surgical management of TMJ ankylosis	4	4
Distraction osteogenesis	2	2
Cleft management	3	4
Enucleation of cyst	3	3
Trauma	6	5
Reconstruction of mandible with fibular graft	2	2

**Oral and Maxillo Facial Surgery Post Graduates Activity Report – Cancer Research and Relief Trust**

**Number of students participated: 06**

Dr. Jessica Yolanda Jeevitha and Dr. Prakyatha attended the peripheral postings at Balaji Dental, Craniofacial hospital from 12/05/2019 to 19/05/2019 and Dr. Vijayalakshmi and Dr. Harshne from 23/5/19- 30/5/19 and Dr. Vaishali and Dr. Harushi from 3/6/19-10/6/19. They observed various head and neck oncologic cases , their preoperative assessment including obtaining a complete history, comprehensive clinical evaluation, Investigations (metastatic workup ), GA investigations, biopsy , preoperative preparation for the patient, observing and assisting surgical procedures like wide local excision, surgical resection (hemimandibulectomy), MRND followed by reconstruction with local and distant flaps, They were trained to manage the postoperative complications and participated in regular ward rounds and keep up the follow up of the patient. They also observed cases of treacheostomy, lip repair, palliative care and pain management. They were exposed to various modalities of treatment of head and neck oral cancer cases. They actively participated in the discussions and seminars held at the centre.
