COMPLETE DENTURES MADE EASY

Edentulism is a growing problem in our society with the numbers expected to increase in coming years. Complete denture is the preferred treatment option by most of the patient in Indian scenario. As a practicing dental clinician we should master simple yet satisfactory clinical steps to fabricate complete dentures. A three day hands on course is designed by department of Prosthodontics and Implantology to instruct basic complete denture prosthetic principles for the dental professional that will increase personal knowledge, proficiency and productivity.

LECTURES

(Lectures will be engaged before respective clinical sessions)

Lecture-I - Introduction to complete dentures by
Dr. R. Sridharan M.D.S

Lecture-II - Impressions and border moulding in complete dentures by
Dr. Khalid Ghiaz M.D.S

Lecture-III - Jaw relations by
Dr. Peter John M.D.S

Lecture-V - Try in by
Dr. M.K. Saritha M.D.S

Lecture-IV - Insertion and post insertion care by
Dr. Eazhil M.D.S

Lecture-VI - Other treatment modalities in complete denture patients by
Dr. Arun Kumar M.D.S

HANDS ON:-

Coordinator by
Dr. Deepak K

1. Primary alginate impressions.
2. Border moulding and secondary impressions
 - Incremental and single step border moulding with green stick compound.
