#### SUMMARY:

Today, we had a seminar on NATIONAL ORAL HEALTH POLICY by Akansha.

She talked about the following subheadings:

- Introduction to national oral health policy
- Difference between act and policy
- Need for national oral health policy
- Dentist population ratio
- Geriatric health improvement
- Policy guidelines
- Workshops conducted
- 10 point resolutions
- National oral health care program
- Three components of NOHCP
- Training of health workers
- Recent affairs
- Danta bhagya yojna
- 2018-19 workshops
- Conclusion

# NATIONAL ORAL HEALTH POLICY

AKANSHA TINI P  
CRI 2015-16  
DEPARTMENT OF PUBLIC HEALTH DENTISTRY

Recording

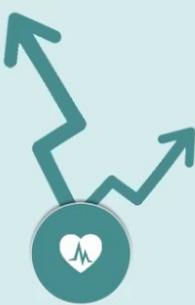

Zoom Meetings is using the webcam

## NEED FOR NATIONAL ORAL HEALTH POLICY

**LOSS OF WORKING HOURS**

Dental diseases greatly affect day to day activities of an individual which are essential for livelihood. Dental pain causes loss of concentration on the work and the person may not be able to work at all.

**ORAL HEALTH CARE EXPENDITURE**

Huge amounts of funds and time is needed to treat the dental caries only in school children of the country. But there's poor budget allocation for oral health problems in India

### BPOC

A basic package of oral care (BPOC), which is available to all, aims at achieving the objectives of the PHC approach. The three components of the BPOC

- 1) Oral Urgent Treatment (OUT)
- 2) Affordable Fluoride Toothpaste (AFT)
- 3) Atraumatic Restorative Treatment (ART).

Source : Reddy MN, Gogoi A, Shwetha HL. Basic Package of Oral Care: An Insight. Int J Oral Health Med Res 2017;3(6):152-157.

## 2019 NATIONAL ORAL HEALTH SURVEY

- ❏ The survey will be supervised by a committee set up last month with representatives from AIIMS, Post Graduate Institute of Medical Education and Research, Chandigarh, and Maulana Azad Institute of Dental Sciences, New Delhi.
- ❏ The survey aims to record specific, representative data on the most prevalent dental diseases in the country like dental decay, gum diseases, dentofacial deformities, cancerous lesions, dental fluorosis and dental trauma among others.
- ❏ The health ministry has identified the Centre for Dental Education & Research (CDER) as the National Centre for Excellence for oral and dental health.

## What is Plagiarism?

- Plagiarism is: The **unacknowledged use or appropriation of another person's words or ideas**
- A form of cheating or stealing
- A serious academic offense
- When we borrow words or ideas from sources to support our argument or research we must give proper credit. By crediting our sources, we avoid plagiarism. If we do not cite a source--intentionally or unintentionally-- we are guilty of plagiarism.

Plagiarism most commonly exists in four ways.

- The first is when the work submitted or presented was **done by someone** other than the one submitting the work.
- Secondly, if the whole work, such as an essay, is **copied** from some other source.
- A third type of plagiarism is when parts of the work are taken from another source and **no reference** is made to the **original author**.
- Finally, if a student submits or presents work in one course which has also been submitted in another course and has not sought approval from the course coordinator to do so, this is also plagiarism.

## When..?

- To give the source of **tables, pics, statistics and diagrams** which might be copied or have been a source of idea.
- When describing a **theory, model or practice** associated with a particular writer.
- To give **credibility to an argument** presented by you.
- When giving emphasis to a particular idea that has found a measure of agreement.
- To **inform the reader** of sources of direct quotations or definitions.
- When paraphrasing another person's idea that you feel is particularly **significant**.

**Summary:-**

- Today we had a seminar on BIOENGINEERING IN DENTISTRY by Keerthana and Sidhaarth

The details of the seminar are as follows:

- Introduction to bioengineering
- Sources of stem cells
- Types of stem cells
- Methods of preservation of stem cells
- In brief about scaffold and growth factors
- Application in regenerative endodontics
- Challenges and future scope
- Conclusion
- References

Summary:-

In the morning session, yoga session was conducted by Mahalakshmi. A seminar on the "Biomaterials used in periodontology and implantology" was presented by Aswini. S. A brief introduction was given followed by discussion on platelet concentrates and it's applications in dentistry which was followed by a brief overview on the recent advances in tissue engineering using stem cells substantiated with relevant articles.

Recording 0003:47

### Calcium phosphate

Calcium phosphate (CaP) biomaterials have outstanding properties:

- Similar composition to bone mineral, bioactivity (formation of bone apatite like material or carbonate hydroxyapatite)
- Ability to promote cellular function and expression leading to formation of a uniquely strong bone-CaP biomaterial interface and osteoconductivity

Other forms of calcium phosphate include:  
Hydroxyapatite (HA)  
Tricalcium phosphate (TCP)

**Summary:-**

- Today we had a seminar on Piezo surgery In Dentistry

The details of the seminar are as follows: by Yuvaranjini

Introduction

History

Piezoelectric device

Mechanism of action

Brands and price in India

Articles discussion

Conclusion

References

By Mukilan

Introduction

Various tips are used in periodontics

Method of use

Clinical application in periodontics and case reports

Advantage and disadvantage

Conclusion

Summary

**INSERT TIPS** Zoom 17:25

INSERT TIPS CAN BE CLASSIFIED AS:

**TITANIUM NITRATE COATING**

THEY ARE EFFECTIVE FOR OSTEOPLASTY TECHNIQUE OR FOR HARVESTING BONE CHIPS BECAUSE THEY HAVE THE MAXIMUM CUTTING EFFICIENCY, AVOID CORROSION, AND INCREASE WORKING LIFE.

**DIAMOND COATING**

USED IN CASE OF THIN BONE OSTEOTOMY OR FOR COMPLETE OSTEOTOMY CLOSE TO ANATOMICAL STRUCTURES OFFERING CLINICALLY LESS EFFICACIOUS CUT, HISTOLOGICALLY ARE MORE TRAUMATIC THAN CUTTING INSERTS, BUT MUCH SAFER. THEY MAY BE CLASSIFIED AS:

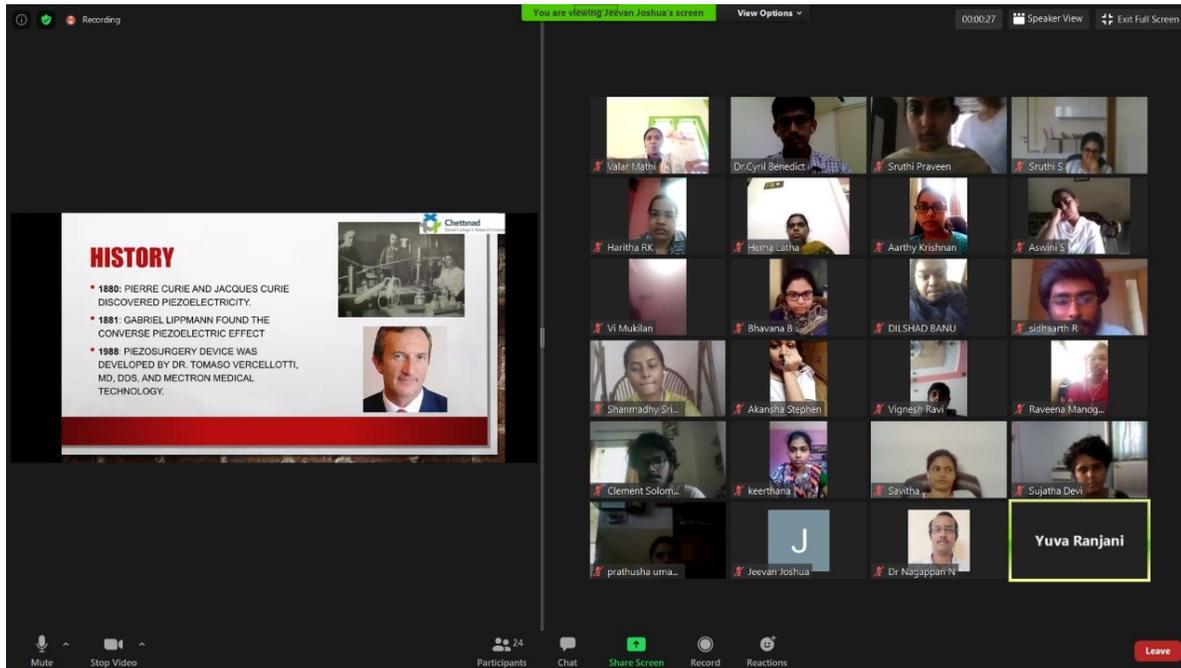

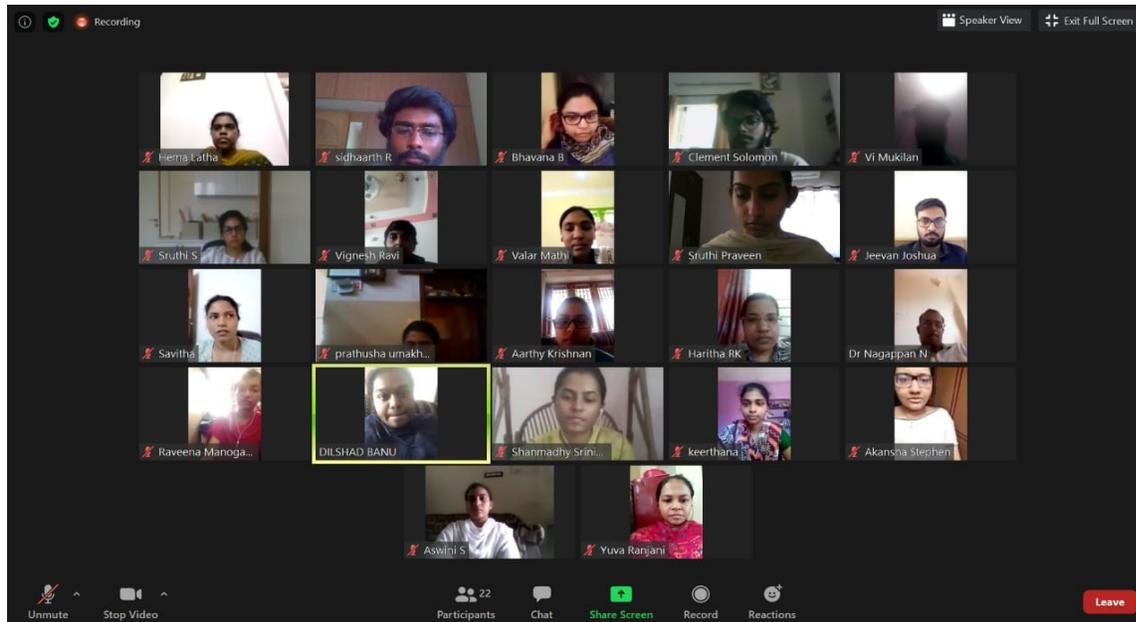

Unmute Start Video Share Participants More

**INTRODUCTION** Zoom 10:26

- ❖ Piezosurgery is a new and modern bone surgery technique for Periodontology and Implantology.
- ❖ A new surgical technique based on the novel application of the principle of piezoelectric ultrasonic vibration is introduced with wide range of applications in dentistry and periodontics.

**Summary:-**

- Today we had a seminar on Piezo surgery by Prathusha U

The details of the seminar are as follows:

- Application of piezo surgery in Dentistry
- Piezo surgery in orthodontics
- Piezo surgery in endodontics
- Advantages of piezo surgery
- Limitations of piezo surgery
- Biological effects of piezo surgery on bone

Evaluation of surgically assisted rapid maxillary expansion with piezosurgery versus oscillating saw and chisel osteotomy - a randomized prospective trial

**REVIEW ARTICLE**

**Piezocision Assisted Orthodontics: A new approach to accelerated orthodontic tooth movement**

Mittal S.K.<sup>1</sup>, Sharma R.<sup>2</sup>, Singla A.<sup>3</sup>

**Abstract:**

Over the past decade the percentage of adult patients seeking orthodontic treatment has been steadily increasing to enhance their smile or their masticatory function. These adult orthodontic patients have expectations and concerns about their treatment that are different from the concerns that children and adolescents may have. An aesthetic appliance and a short treatment time have been a recurring request of adult patients. To address and reduce overall treatment time, a number of surgical techniques have been developed to accelerate orthodontic tooth movement. However, these have been found to be quite invasive, leading to low acceptance in patients and the dental community. Piezocision assisted Orthodontics is a recently introduced, minimally invasive procedure, combining micro incisions with selective tunnelling that allows hard or soft tissue grafting and piezoelectric incisions. This novel approach leads to short orthodontic treatment time, minimal discomfort, and great patient acceptance, as well as stronger periodontium.

**Key words:** Piezocision, adult orthodontics, accelerated orthodontic tooth movement

## Summary of the meeting:

The first presentation was by Dr. Azmathullah on the topic “**Patient management**”.

He spoke briefly on his take towards patient management. He added his experience in the dept. Of speciality and how he thought it helped him in making better treatment plans. He highlighted the importance of seeing a case from start to finish, importance of following up and maintaining patient records.

The second presentation was by Raveena on the topic “**Bone graft**”

Introduction to hard and soft tissue grafts. Historical review. Biological concepts and healing. Biomaterials used. Techniques for grafting procedure. Advantages and disadvantages. Inclusion and exclusion criteria for graft placement.

**Summary:-**

- Today we had a discussion on **PERIODONTAL GRAFTS** by **Raveena**

The details of the seminar are as follows:

- Introduction to graft materials
- Detailed history of graft materials
- classification of grafts in brief

Followed by Raveena, Hemalatha presented on the same topic ‘PERIODONTAL GRAFTS’

The details of the seminar are as follows:

- Classification of bone grafts
- Detailed explanation of each type of grafts
- Techniques and devices used
- Storage of graft material
- Discussion of barrier membranes and articles related to periodontal regeneration using these graft materials

Summary:-

Morning session was taken by Sruthi S

The topic of discussion was on Digital Practice

She gave an introduction about the digital dentistry and the various different dental technologies such as intra oral camera digital radiography etc. and few studies related

CAD CAM and computer aided implant placement were explained

Digital photography, the wand and loops used in dentistry were also explained

**Abstract**

**Aim:** To evaluate the pain experience and behavior during dental injection, using the Wand computerized delivery system versus conventional local anesthesia in children and adolescents. **Methods:** An observational crossover split mouth study was performed on 67 patients (aged 7 to 15 years), requiring local anesthesia for dental treatments in both sides of the dental arch. Patients received both types of injections in two separate appointments, one with the use of a Computer Delivery System (the Wand STA system) and one with the traditional syringe. The following data were recorded: pain rating; changes in heart rate; level of collaboration; patient satisfaction. The data were analyzed using ANOVA for quantitative outcomes and nonparametric analysis (Kruskal-Wallis) for qualitative parameters. **Results:** The use of the Wand system determined significantly lower pain ratings and lower increase of heart rate than the traditional syringe. During injection, the number of patients showing a relaxed behavior was higher with the Wand than with the traditional local anesthesia. The patient level of satisfaction was higher with the Wand compared to the conventional local anesthesia. **Conclusions:** The Wand system may provide a less painful injection when compared to the conventional local anesthesia and it seemed to be better tolerated with respect to a traditional syringe.

Summary:-

Mid-Morning session was taken by Krithika and Sruthi. P

The topic of discussion was on digitalization of patient record- Krithika

She explained about

1. Various dental software's and its features
2. How retrieval can be done
3. Disadvantages

Sruthi. P discussed about

1. Advantages and disadvantages of various dental software's
2. Tele dentistry- introduction
3. Apps used for tele dentistry

## Summary:-

- Today we had a discussion on **Digital dentistry** by **Aarthy**

The details of the seminar are as follows:

- Introduction to digital dentistry
- International classification of diseases (ICD) code
- History of ICD
- Uses of ICD
- ICD codes in dentistry

The screenshot shows a Zoom meeting interface. On the left, a presentation slide is displayed with the following text:

- The main task of a Medical Coder is to review clinical statements and assign standard codes using CPT, ICD-10-CM classification systems.
- Medical billers, on the other hand, process and follow up on claims sent to health insurance companies for reimbursement of services rendered by a healthcare provider.

The right side of the screen shows a grid of 23 participants. At the bottom, the Zoom control bar includes options for Unmute, Stop Video, Participants (23), Chat, Share Screen, Record, Reactions, and a Leave button. A status bar at the top indicates 'You are viewing Aarthy Krishnan's screen' and 'View Options'.

**Summary:-**

**Morning session 9.00-10.00AM**

- The day started with yoga session guided by the divine voice of Kaviya

-The session proceeded with special events for **NATIONAL PUBLIC HEALTH DENTISTRY DAY by A Batch**

The details of the events are as follows

The theme for the day "**Service for all people: rural or urban**"

Introduction by Mukilan - Tamil speech

Fluoride wealth- quiz on fluorides

Identify the person-picture quiz

**Midmorning session 11.30 AM - 12.30PM**

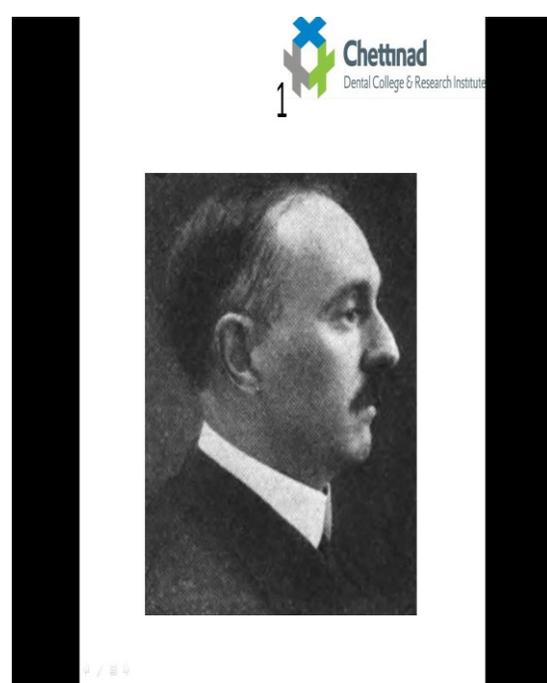

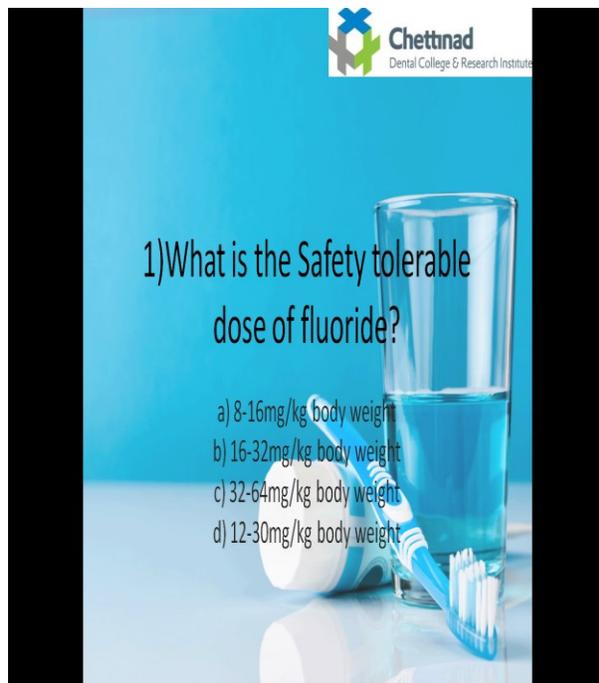

The events were continued by A batch

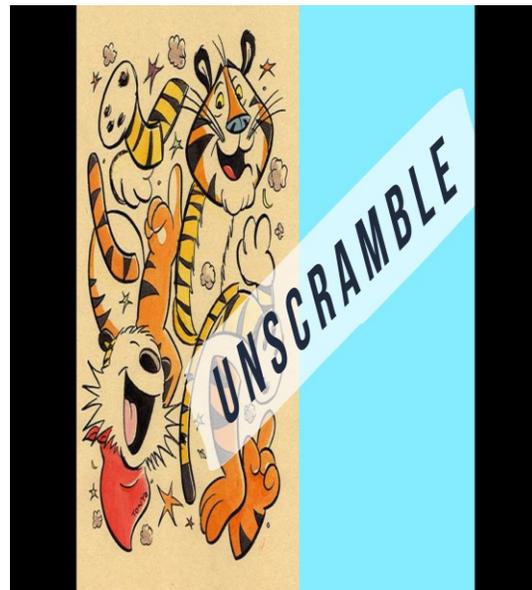

A skit was projected performed by A batch based on the theme, Service for all people: rural or urban

The skit was mainly targeted on the scenarios of rural and urban people and their differences towards dental treatment

Charts and posters for the day were projected and explained

Games were conducted for all related to dentistry- dumb charades, scramble, picture twist.

**Summary:-**

This morning the yoga session was hosted by Mahalakshmi CRI.

Today's discussion was Introduction to Corticosteroids, presented by Haritha

The Points highlighted were:

- Mechanism of corticosteroids
- Classification of corticosteroids
- Indications and contraindications of corticosteroids
- Advantages and disadvantages
- Adverse effects of corticosteroids

Recording...

### HYDROCORTISONE (CORTISOL)

- ▶ RAPID ACTION
- ▶ SHORT DURATION
- ▶ Replacement therapy—20 mg morning + 10 mg afternoon orally.
- ▶ Shock, status asthmaticus, acute adrenal insufficiency— 100 mg i.v. bolus + 100 mg 8 hourly .v. infusion.
- ▶ Topically and as suspension for enema in ulcerative colitis

### PREDNISOLONE

- ▶ 4 x POTENCY
- ▶ SLECTIVE GLUCOCORTICOID
- ▶ INTERMEDIATE DURATION OF ACTION
- ▶ 5-60MG/DAY ORAL, 10 -40 MG IM, INTRAARTICULAR, TOPICALLY
- ▶ ALLERGY, IINFLAMMATION, AUTOIMMUNE DISEASE, MALIGNANCY

## ARTICLE

**Topical Corticosteroids in Dermatology**

Agayathi S Mahta<sup>1</sup>, Nalin J Nadkarni<sup>1</sup>, Sharmila P Patel<sup>1</sup>, Kisan V Goshal<sup>1</sup>, Mangesh Gautam<sup>1</sup>, Shweta Agarwal<sup>1</sup>

**Abstract**

Since their introduction, topical corticosteroids have become indispensable in the treatment of various dermatoses. Hydrocortisone was the first compound. Modifications in the basic structure generated in vivo activity and thus different topically active compounds were discovered. Apart from the Stoughton vasoconstrictor assay, various other methods are used for potency assessment of topical corticosteroids. Topical corticosteroids are classified based upon potency and action of these molecules. Mechanism of action at the cellular level and indications of topical corticosteroid use have been discussed. Various adverse effects often occur as an extension of their activity combined with inappropriate usage.

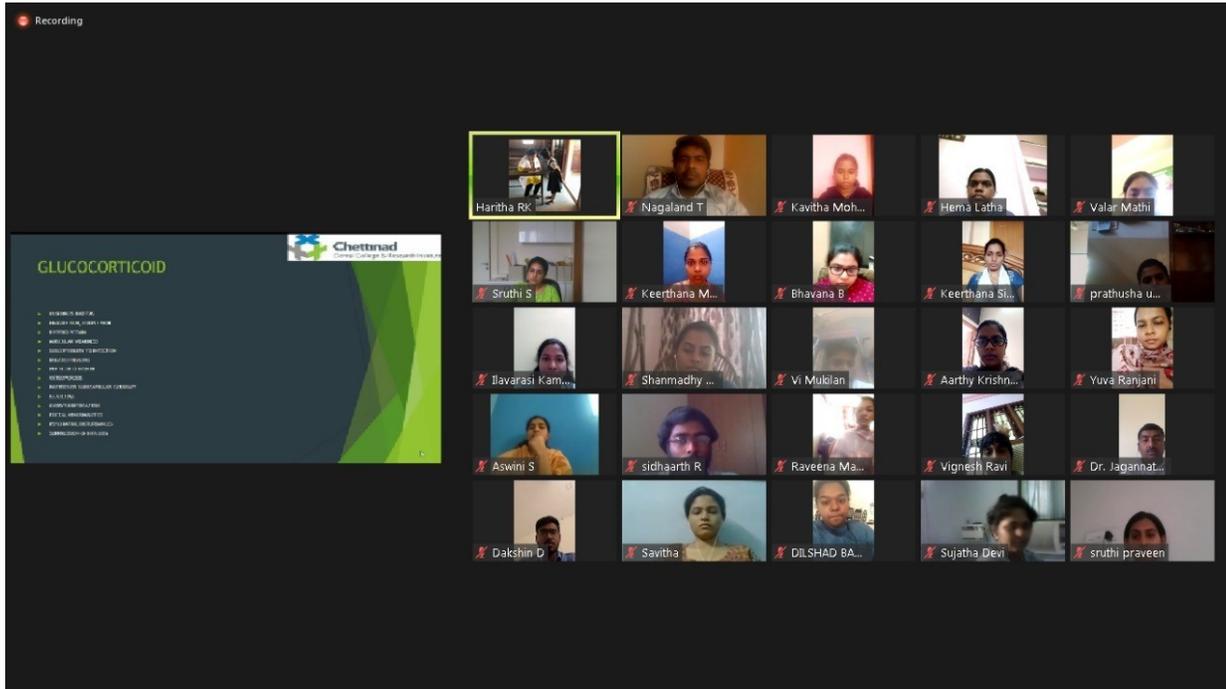

Various adverse effects often occur as an extension of their activity combined with inappropriate usage. Tachyphylaxis and contact allergy are potential problems in clinical practice. Newer compounds with improved risk-benefit ratio are available.

**DEPARTMENT OF PUBLIC HEALTH DENTISTRY**

INTERNS SESSION -20/06/2020

Afternoon session 2.30-3.30 PM

Staffs present:-

Dr. Jagannatha GV

Dr. Nagappan N

Dr. Nagaland T

Dr. Cyril Benedict

Dr. Dilshad Banu

1st year PG:

Dr. Sujatha Devi

No of students posted in PHD: 24

No of students participated in discussion: 22

Department interns:-

Total No of students: 7

No of students present: 7

1. Sidhaarth R

2. Vignesh Ravi

3. Raveena M

4. Prathusha U

5. Shanmadhy

6. Sruthi S

7. Krithika

E block interns:-

Total No of students: 4

No of students present: 2

1. Ilavarasi
2. Keerthana S

Absent:

1. Nandhini
2. Methaf Mohideen

Super specialty interns:-

Total No of students: 6

No of students present: 6

1. Aswini S
2. Haritha RK
3. Yuvaranjani
4. Sruthi P
5. Valarmathi
6. Dakshin

Poonjeri batch

Total No of students: 7

No of students present: 7

1. Aarthy K
2. Bhavana B
3. Hemalatha
4. Keerthana M
5. Mukilan V
6. Kavitha
7. Savitha

Final year batch:

Total No of students: 13

No of students present: 13

1. Kadambari R
2. Kanchanamala R
3. Kauvya K
4. Kishan Kumar M
5. Kudiarasi R
6. Lakshika Sree K V
7. Lakshmi Priya M
8. Lalitha R
9. Logesh Ram S
10. Madhubala S
11. Mahasrinithi S

## Summary:-

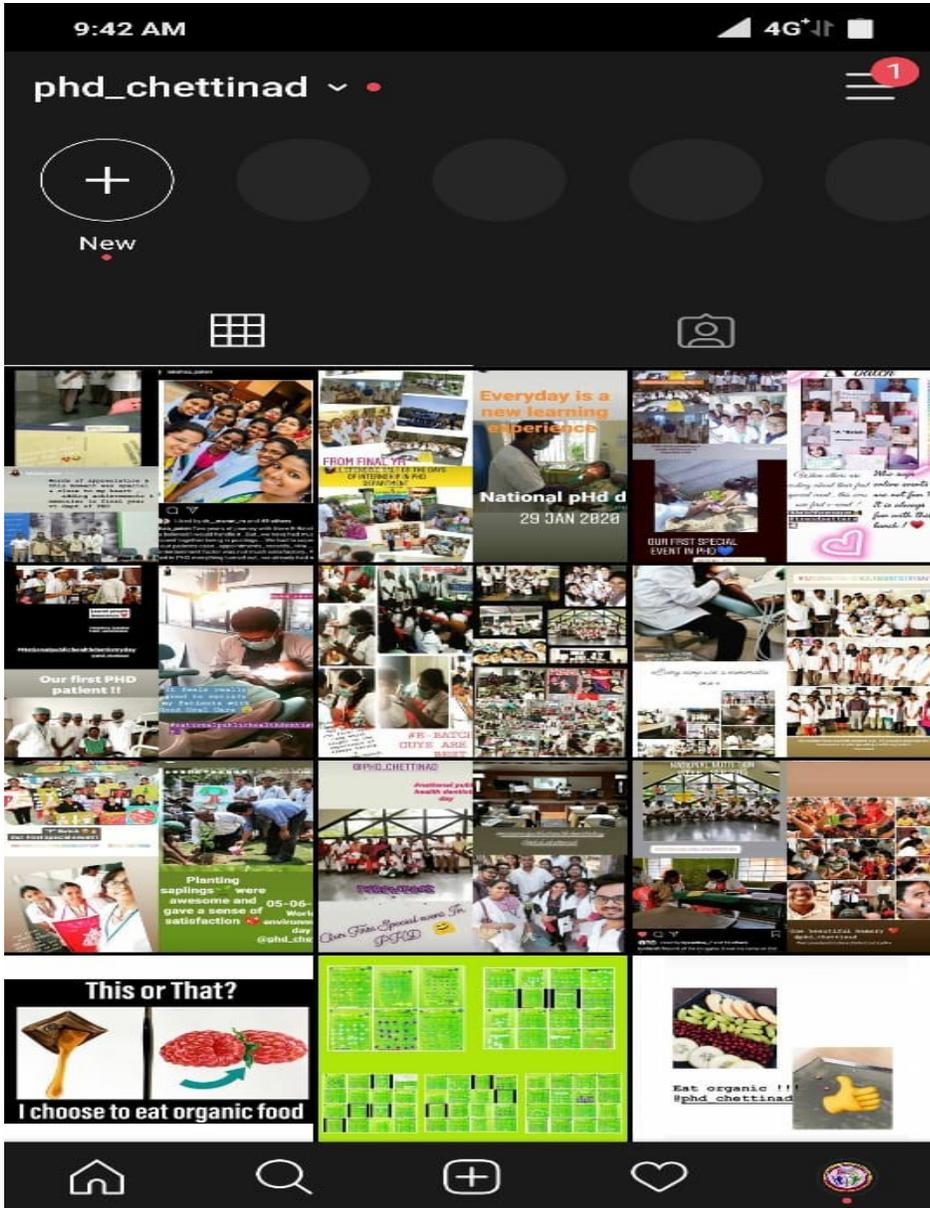

Followed by E block interns **SUPER SPECIALITY INTERNS** organized their events for the special day. The details of the events are as follows:

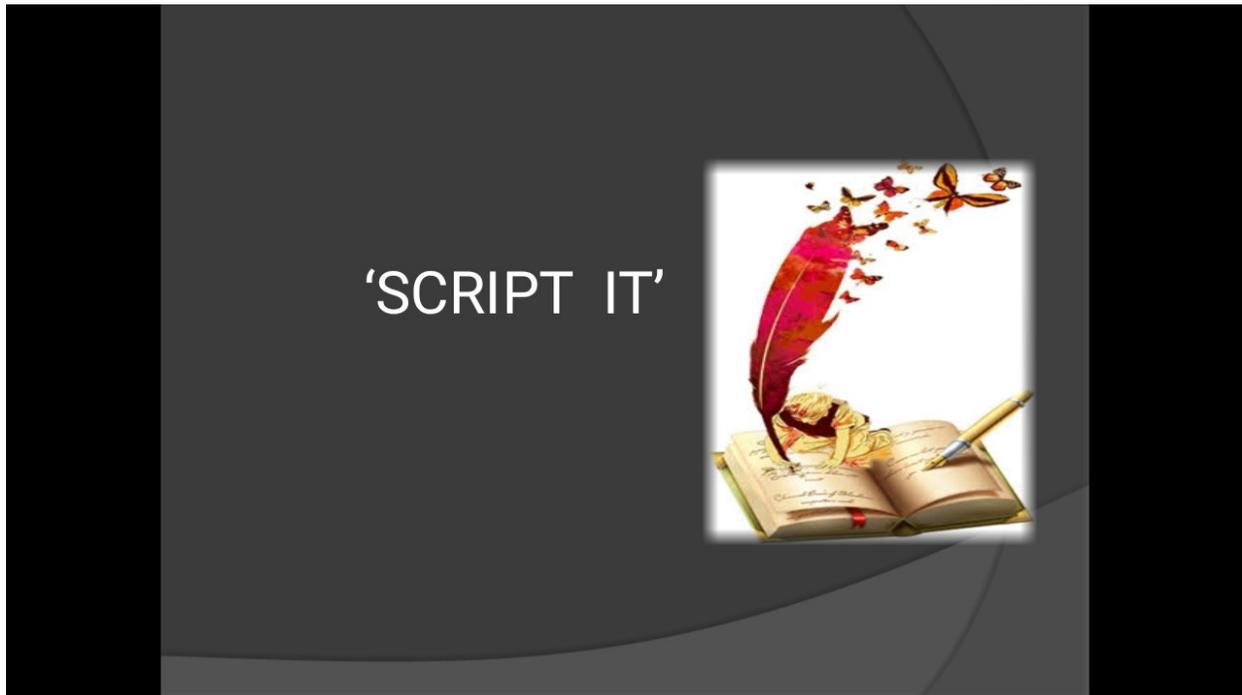

The theme was “**Destressing Dentists**”

- Light channeling by SRUTHI P with her simple yet pleasing presentation on it.
- A fun game – crossword puzzle by HARITHA RK
- Down the memory lane, which was about the collective memories posted in our official PHD Instagram page by YUVARANJANI P
- Script it – again a fun game which worked up our imagination by DAKSHIN D and ASWINI S.

## Light age

We live in Space and Time.

The Time runs in cycles. Each cycle has four parts.

The Light Age or the Golden Age or Satya Yuga (20,304 years), the Silver Age or Treta Yuga (15,228 years), the Copper Age or Dwapara Yuga (10,152 years) and the Iron Age or Kali Yuga or the Dark Age (9,076 years).

On 14th March 1974, the Kali Yuga ended. We are now in the period of transition into the next Light Age or the Satya Yuga.

The Light Age is an age of Love, Peace, Harmony, Purity and Perfection. To live in this age all of us have to be pure and perfect.

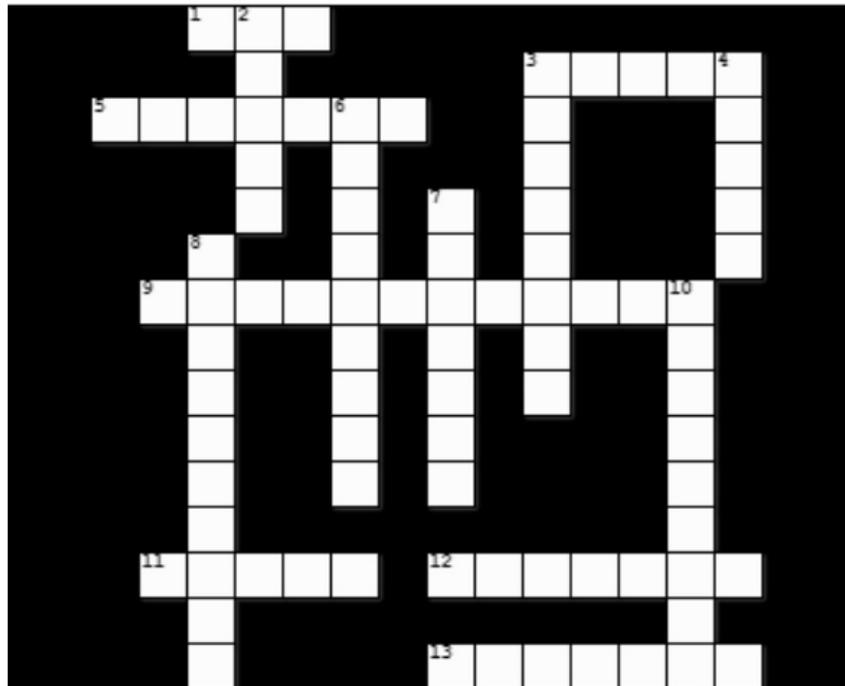

We have to throw away the ways of the Dark Age
