Date: 23.03.2022 Venue: Empirical molecular diagnostics, nanganallur

Time: 11.00am – 3:00pm

Faculty Name:

Dr. Priyadarshini.A, Dr.Abinaya, Senior lecturers, OMDR

Post graduates: Dr.Shymala, Dr.Pavithra, Dr.Divya rani

Under graduates: III rd and IV yrs students, CDCRI

Summary:

To create an awareness about industries and to highlight various avenues for research and development in dentistry, both under graduates and post graduate students were taken for an industry visit at Empirical lab. The CEO of empirical lab Welcome our doctors and students to have an insight of their lab. The students were taken for a tour inside the lab where their expert advisors showed how machines work, their usage and their various applications where it can be used. The post graduate students were also shown the advanced machines and procedures in advanced techniques. After an extensive explanation to both our staffs and students, we thanked the empirical lab people for their excellent hospitality and devoting their valuable time and the visit ended with a memorable experience.
